Subject: Application for Intern Support Engineer Position

Dear Hiring Manager,

I am writing to express my interest in the Intern Support Engineer position at SpaGreen Creative, as advertised. As a recent Computer Science graduate from Daffodil International University with a passion for software and a strong problem-solving mindset, I am eager to begin my professional journey with your dynamic team.

During my academic years, I worked on several technical projects, including a machine learning-based system for detecting tea leaf diseases, where I gained hands-on experience with data analysis, troubleshooting code, and collaborating within teams. These experiences sharpened my ability to analyze issues and communicate solutions clearly—skills that I believe align perfectly with the responsibilities of this role.

What excites me most about SpaGreen Creative is your commitment to nurturing fresh talent and fostering a collaborative environment. The opportunity to assist users, contribute to meaningful documentation, and be a part of a vibrant support team is exactly the kind of challenge I'm looking for. While I am still building my professional experience, I bring a strong willingness to learn, a proactive attitude, and a keen interest in growing within the tech industry.

I would love to contribute to SpaGreen Creative and learn from your experienced professionals. Thank you for considering my application. I look forward to discussing how I can contribute to your team.

Sincerely,

Muhammad Abu Saleh Jahid
